Modern Advanced Accounting E. John Larsen 1988 Larsen's *Advanced Accounting* provides

complete and in-depth coverage of the topics typically taught in a one- or two- semester advanced accounting course. Faculty appreciate the current coverage of FASB and GASB regulations, the wealth of thorough end-of-chapter material, and the in-depth coverage. This flexible text is designed modularly; each part is self contained which allows instructors to only cover chapters that are appropriate for their class.

Building Services G. Hassan 1996-11-11 A textbook for students at undergraduate and equivalent level taking courses on the built environment. It will appeal in particular to second level students of construction, building surveying, quantity surveying and architecture. While covering the full range of topics normally associated with building services, the author focuses on the treatment of energy within the built environment, as this is held to be one of the chief concerns of building consultants, building and facilities managers, inspectors and engineers.

Management Accounting Leslie G. Eldenburg 2020-01-21 Eldenburg's fourth edition of Management Accounting combines the basic technical issues associated with cost management, management accounting and control with more recent and emerging themes and issues. Management accounting is a compulsory element of the accounting major, and this text is written to cover the content typically taught in the two management accounting units offered in most accounting programs. The Management Accounting interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes case videos, interactive problems and questions with immediate feedback. Eldenburg's unique resource can also form the basis of a blended

learning solution for lecturers.
