Committed to Memory Cheryl Finley 2018-07-03 How an eighteenth-century engraving of the slave ship became a cultural icon of black resistance, identity, and remembrance One of the most iconic images of slavery is a schematic wood engraving depicting the human cargo hold of a slave ship. First published by British abolitionists in 1788, it exposed this widespread commercial practice for what it really was--shocking, immoral, barbaric, unimaginable. Printed as handbills and broadsides, the image Cheryl Finley has termed the "slave ship icon" was easily reproduced, and by the end of the eighteenth century it was circulating by the tens of thousands around the Atlantic rim. Committed to Memory provides the first in-depth look at how this artifact of the fight against slavery became an enduring symbol of black resistance, identity, and remembrance. Finley traces how the slave ship icon became a powerful tool in the hands of British and American abolitionists, and how its radical potential was rediscovered in the twentieth century by black artists, activists, writers, filmmakers, and curators. Finley offers provocative new insights into the works of Amiri Baraka, Romare Bearden, Betye Saar, and many others. She demonstrates how the icon was transformed into poetry, literature, visual art, sculpture, performance, and film--and became a medium through which diasporic Africans have reasserted their common identity and memorialized their ancestors. Beautifully illustrated, Committed to Memory features works from around the world, taking readers from the United States and England to West Africa and the Caribbean. It shows how contemporary black artists and their allies have used this iconic eighteenth-century engraving to reflect on the trauma of slavery and come to terms with its legacy.

The Life of Langston Hughes Arnold Rampersad 2002-01-10 February 1, 2002 marks the 100th birthday of Langston Hughes. To commemorate the centennial of his birth, Arnold Rampersad has contributed new Afterwords to both volumes of his highly-praised biography of this most extraordinary and prolific American writer. In young adulthood Hughes possessed a nomadic but dedicated spirit that led him from Mexico to Africa and the Soviet Union to Japan, and countless other stops around the globe. Associating with political activists, patrons, and fellow artists, and drawing inspiration from both Walt Whitman and the vibrant Afro-American culture, Hughes soon became the most original and revered of black poets. In the first volume's Afterword, Rampersad looks back at the significant early works Hughes produced, the genres he explored, and offers a new perspective on Hughes's lasting literary influence. Exhaustively researched in archival collections throughout the country, especially in the Langston Hughes papers at Yale University's Beinecke Library, and featuring fifty illustrations per volume, this anniversary edition will offer a new generation of readers entrance to the life and mind of one of the twentieth century's greatest artists.

Accessing the Classics: Great Reads for Adults, Teens, and English Language Learners La Vergne Rosow 2005-12-30 Help readers improve reading skills while stimulating their appreciation and increasing their understanding of great literature. Using a scaffolding approach, this guide leads readers from simple and engaging reads to more challenging texts, and simultaneously cultivates their interest and skills. An invaluable resource for middle and high school, ABE and ESL educators, as well as for readers' advisors. All readers—even those still learning to speak English—can enjoy the delights and benefits of great literature with the help of this motivational and practical book guide. Rosow takes you on a journey through the history of Western literature, beginning with ancient myths and moving to medieval tales and classics of the Renaissance, Romantic Movement, and Modernism. Along the way, she shows you how to give readers easy access to some of the best literature of all time. Scores of collections focus on such ancient and enduring stories as Gilgamesh, Beowulf, the tales of Chaucer; historical masterpieces of William Shakespeare, Jane Austen, Edgar Allan Poe, Charles Dickens; and stellar names of more recent times, such as Virginia Woolf, John Steinbeck, Ernest Hemingway, and J.R.R. Tolkien. Each carefully selected collection lists an assortment of titles, ranging in reading level and arranged progressively from simple renditions, such as picture book re-tellings, through more advanced selections and readings where audio versions and simpler formatting support the reader, and on to the most challenging reads. Author profiles and narrative, as well as detailed descriptions of each title provide further insights into the story lines and features of the books; while building a scaffold of reading experience and knowledge to help readers better understand the texts. For example, the Mark Twain collection begins with a brief biographical sketch of the author, followed by descriptions of two illustrated books about the author and two readers' theatre skits based on his work. A collection of Twain's short stories is recommended next, and then several illustrated versions of his novels, and an illustrated edition of Twain's memoir, Life on the Mississippi, which is supported by an audiotape version. Each recommended title is rated as start here, next read, support here, or challenging read; and related reads, and audio and video versions are listed when appropriate. The author also notes author and student favorites, titles with exceptional illustrations, and other features of interest. Focus is on authors and titles of the Western canon that are generally lu2768 le in library collections. Because some of the titles cited are older editions, this is a valuable collection development tool in libraries; as well as an essential resource for readers' advisors, Adult Basic Education, and English as Second Language educators, and young adult educators and librarians. Young adult and adult or Grades 9 and up.

Reading the Postwar Future Kirrily Freeman 2019-10-17 This original collection explores a number of significant texts produced in 1944 that define that year as a textual turning point when overlapping and diverging visions of a new world emerged. The questions posed at that moment, about capitalism, race, empire, nation and cultural modernity gave rise to debates that defined the global politics of their era and continue to delineate our own. Highlighting the goals, agendas and priorities that emerged for artists, intellectuals and politicians in 1944, Reading the Postwar Future rethinks the intellectual history of the 20th century and the way 1944's texts shaped the contours of the postwar world. This is essential reading for any student or scholar of the intellectual, political, economic and cultural history of the postwar era.

Handbook of Research on Children's and Young Adult Literature Shelby Wolf 2011-04-27 This landmark volume is the first to bring together leading scholarship on children's and young adult literature from three intersecting disciplines: Education, English, and Library and Information Science. Distinguished by its multidisciplinary approach, it describes and analyzes the different aspects of literary reading, texts, and contexts to illuminate how the book is transformed within and across different academic figurations of reading and interpreting children's literature. Part one considers perspectives on readers and reading literature in home, school, library, and community settings. Part two introduces analytic frames for studying young adult novels, picturebooks, indigenous literature, graphic novels, and other genres. Chapters include commentary on literary experiences and creative production from renowned authors and illustrators. Part three focuses on the social contexts of literary study, with chapters on censorship, awards, marketing, and literary museums. The singular contribution of this Handbook is to lay the groundwork for colleagues across disciplines to redraw the map of their separately figured worlds, thus to enlarge the scope of scholarship and dialogue as well as push ahead into uncharted territory.

African American Literature in Transition, 1930-1940: Volume 10 Eve Dunbar 2022-03-31 This book illustrates African American writers' cultural production and political engagement despite the economic precarity of the 1930s.

Struggles for Representation Phyllis Rauch Klotman 1999 Struggles for Representation examines over 300 non-fiction films by more than 150 African American film/videomakers and includes an extensive filmography, bibliography, and excerpts from interviews with film/videomakers. In eleven original essays, contributors explore the extraordinary scope of these aesthetic and social documents and chart a previously undiscovered territory: documentaries that examine the aesthetic, economic, historical, political, and social forces that shape the lives of black Americans, as seen from their perspectives. Until now, scholars and critics have concentrated on black fiction film and on mainstream non-fiction films, neglecting the groundbreaking body of black non-fiction productions that offer privileged views of American life. Yet, these rich and varied works in film, video, and new electronic media, convey vast

stores of knowledge and experience. Although most documentary cannot hope to match fiction film's mass appeal, it is unrivaled in its ability to portray searing, indelible impressions of black life, including concrete views of significant events and moving portraits of charismatic individuals. Documentary footage brings audiences the moments when civil rights protestors were attacked by state troopers; it provides the sights and sounds of Malcom X delivering an electrifying speech, Betty Carter performing a heart-wrenching song, and Langston Hughes strolling on a beach. Uniting all of this work is the "struggle for representation" that characterizes each film—an urgent desire to convey black life in ways that counter the uninformed and often distorted representations of mass media film and television productions. African American documentaries have long been associated with struggles for social and political empowerment; for many film/videomakers, documentary is a compelling mode with which to present an alternative, more authentic narrative of black experiences and an effective critique of mainstream discourse. Thus, many socially and politically committed film/videomakers view documentary as a tool with which to interrogate and reinvent history; their works fill gaps, correct errors, and expose distortions in order to provide counter-narratives of African American experience. Contributors include Paul Arthur, Houston A. Baker, Jr., Mark F. Baker, Pearl Bowser, Janet K. Cutler Manthia Diawara, Elizabeth Amelia Hadley, Phyllis R. Klotman, Tommy Lee Lott, Erika Muhammad, Valerie Smith, and Clyde Taylor.

Shadow Archives Jean-Christophe Cloutier 2019-09-03 Recasting the history of African American literature. Shadow Archives brings to life a slew of newly discovered texts—including Claude McKay's *Amiable with Big Teeth*—to tell the stories of black special collections and their struggle for institutional recognition. Jean-Christophe Cloutier offers revelatory readings of major African American writers, including McKay, Richard Wright, Ann Petry, and Ralph Ellison, and provides a nuanced view of how archival methodology, access, and the power dynamics of acquisitions shape literary history. Shadow Archives argues that the notion of the archive is crucial to our understanding of postwar African American literary history. Cloutier combines his own experiences as a researcher and archivist with a theoretically rich account of the archive to offer a pioneering study of the importance of African American authors' archival practices and how these shaped their writing. Given the lack of institutions dedicated to the black experience, the novel became an alternative site of historical preservation, a means to ensure both individual legacy and group survival. Such archivism manifests in the work of these authors through evolving lifecycles where documents undergo repurposing, revision, insertion, falsification, transformation, and fictionalization, sometimes across decades. An innovative interdisciplinary consideration of literary papers, Shadow Archives proposes new ways for literary scholars to engage with the archive.

Redefining Liberal Arts Education in the Twenty-First Century Robert E. Luckett Jr. 2021-06-15 Contributions by William D. Adams, Sarah Archino, Mario J. Azevedo, Katrina Byrd, Rico D. Chapman, Helen O. Chukwuma, Monica Flippin Wynn, Tatiana Glushko, Eric J. Griffin, Kathi R. Griffin, Yumi Park Huntington, Thomas M. Kersen, Robert E. Luckett Jr., Floyd W. Martin, Preselfannie W. McDaniels, Dawn Bishop McLin, Laura Ashlee Messina, Byron D'Andra Orey, Kathy Root Pitts, Candis Pizzetta, Lawrence Sledge, RaShell R. Smith-Spears, Joseph Martin Stevenson, Seretha D. Williams, and Karen C. Wilson-Stevenson Redefining Liberal Arts Education in the Twenty-First Century delves into the essential nature of the liberal arts in America today. During a time when the STEM fields of science, technology, engineering, and math dominate the narrative around the future of higher education, the liberal arts remain vital but frequently dismissed academic pursuits. While STEAM has emerged as a popular acronym, the arts get added to the discussion in a way that is often rhetorical at best. Written by scholars from a diversity of fields and institutions, the essays in this collection legitimize the liberal arts and offer visions for the role of these disciplines in the modern world. From the arts, pedagogy, and writing to social justice, the digital humanities, and the African American experience, the essays that comprise Redefining Liberal Arts Education in the Twenty-First Century bring attention to the vast array of ways in which the liberal arts continue to be fundamental parts of any education. In an increasingly transactional environment, in which students believe a degree must lead to a specific job and set income, colleges and universities should take heed of the advice from these scholars. The liberal arts do not lend themselves to the capacity to do a single job, but to do any job. The effective teaching of critical and analytical thinking, writing, and speaking creates educated citizens. In a divisive twenty-first-century world, such a citizenry holds the tools to maintain a free society, redefining the liberal arts in a manner that may be key to the American republic.

Socialist Joy in the Writing of Langston Hughes Jonathan Scott 2006 "Explores Hughes's intellectual method and its relation to social activism. Examines his involvement with socialist movements of the 1920s and 1930s and contends that the goal of overthrowing white oppression produced a "socialist joy" expressed repeatedly in his later work, in spite of the anticommunist crusades of the cold war"--Provided by publisher.

"Visualizing Haiti in U.S. Culture, 1910?950 " LindsayJ. Twa 2017-07-05 From the late 1910s through the 1950s, particularly, the Caribbean nation of Haiti drew the attention and imaginations of many key U.S. artists, yet curiously, while significant studies have been published on Haiti's history and inter-American exchanges, none analyze visual representations with any depth. The author calls not only on the methodologies of art history, but also on the interdisciplinary eye of visual culture studies, anthropology, literary theory, and tourism studies to examine the fine arts in relation to popular arts, media, social beliefs, and institutional structures. Twa emphasizes close visual readings of photographs, illustrations, paintings, and theatre. Extensive textual and archival research also supports her visual analysis, such as scrutinizing the personal papers of this study's artists, writers, and intellectuals. Among the literary and artistic luminaries of the twentieth century that Twa includes in her discussion are Richmond Barth?Eldzier Cortor, Aaron Douglas, Katherine Dunham, Langston Hughes, Zora Neale Hurston, Alexander King, Jacob Lawrence, James Weldon Johnson, Lo?Mailou Jones, Eugene O?Neill, and William Edouard Scott. Twa argues that their choice of Haiti as subject matter was a highly charged decision by these American artists to use their artwork to engage racial, social, and political issues.

Literary Research and the American Modernist Era Robert N. Matuozzi 2008-07-31 Characterized by its move away from Romanticism and toward mundane, every day subjects, as well as incorporating such ideas as metanarrative, stream of consciousness, and disjointed timelines, the American Modernist Era was at its heyday during the years 1914-1949. [The Making of the New Negro](#) Anna Pochmara 2011 The Making of the New Negro examines black masculinity in the period of the New Negro/Harlem Renaissance, which for many decades did not attract a lot of scholarly attention, until, in the 1990s, many scholars discovered how complex, significant, and fascinating it was. Using African American published texts, American archives and unpublished writings, and contemporaneous European discourses, this book focuses both on the canonical figures of the New Negro Movement and African American culture, such as W.E.B. Du Bois, Booker T. Washington, Alain Locke, and Richard Wright, and on writers who have not received as much scholarly attention despite their significance for the movement, such as Wallace Thurman. Its perspective combines gender, sexuality, and race studies with a thorough literary analysis and historicist investigation, an approach that has not been extensively applied to analyze the New Negro Renaissance.

[Terrorism Versus Democracy](#) Paul Wilkinson 2011-02-01 This book examines the terrorist networks that operate globally and analyses the long-term future of terrorism and terrorist-backed insurgencies. Terrorism remains a serious problem for the international community. The global picture does not indicate that the 'war on terror', which President George W. Bush declared in the wake of the 9/11 attacks, has been won. On the other hand it would be incorrect to assume that Al Qaeda, its affiliates and other jihadi groups have won their so-called 'holy war' against the Coalition against Terrorism formed after 9/11. This new edition gives more attention to the political and strategic impact of modern transnational terrorism, the need for maximum international cooperation by law-abiding states to counter not only direct threats to the safety and security of their own citizens but also to preserve international peace and security through strengthening counter-proliferation and cooperative threat reduction (CTR). This book is essential reading for undergraduate and postgraduate students of terrorism studies, political science and international relations, as well as for policy makers and journalists.
