Teaching History in a Neoliberal Age Mary Woolley 2019-09-24 This book explores changing practice in history classrooms from the autonomy of the 1980s through the introduction of GCSEs and the National Curriculum to the prescription of the National Strategies and the pervasive influence of league tables in the first decade of the twenty-first century. It uses individual narratives from history teachers to shed light on a changing profession. Showcasing research that is crucial reading for leaders in education, it uses oral accounts from 13 experienced teachers to provide a rich testimony of the constraints and affordances acting on history teachers. The book offers a unique perspective to show how teachers experienced steady but substantial changes in policy and autonomy and how this affected their practice; this detail enhances an analysis of policy and curricular documents across three decades. The findings are crucial for educational settings today, facing crises of teacher recruitment and teacher retention. This book will be of great interest to academics and higher degree research students in history education, history of education and education policy. It will also be of interest to beginning history teachers and senior school leaders responsible for teacher development and curriculum.

100 Dreams and Their Biblical Interpretations Jacob Makaya 2018-06-01 Sometimes you have a dream and when you wake up, you thank God "it was just a dream." God uses dreams to reveal what is going on in the spiritual realm of one's life. Dreams often reveal things that we may physically be unaware of. When you have a dream, ignoring it does not solve the problem. God uses dreams to guide us to make correct decisions in our lives. He also uses dreams to warn us if something bad was going to happen so we can pray and change it. More importantly, God uses dreams to reveal His purpose in our lives. Every dream has a purpose and interpretation. For instance, when you dream you are eating, being chased by people, driving a car, taking exams, being in a place you have never been, being in a place you know or used to live, etc; God is directing speaking to you things that are going on in your life. The Bible has answers to all these dreams and many others. This book will reveal God's word to you in a personal level because interpretations of dreams are personal and are based on God's message to you

Innovative Strategies for Accelerated Human Resources Development in South Asia Asian Development Bank 2017-12-01 Assessment of student learning outcomes (ASLO) is one of the key activities in teaching and learning. It serves as the source of information in determining the quality of education at the classroom and national levels. Results from any assessment have an influence on decision making, on policy development related to improving individual student achievement, and to ensure the equity and quality of an education system. ASLO provides teachers and school heads with information for making decisions regarding a students' progress. The information allows teachers and school heads to understand a students' performance better. This report reviews ASLO in three South Asian countries---Bangladesh, Nepal, and Sri Lanka---with a focus on public examinations, national assessment, school-based assessment, and classroom assessment practiced in these countries.

Learning from Shanghai Charlene Tan 2012-11-27 The Shanghai school system has attracted worldwide attention since its impressive performance in the Programme for International Student Assessment (PISA) in 2009. The system ranks as a 'stunning success' according to standards of the Organisation for Economic Co-operation and Development (OECD). Shanghai also stands out for having the world's highest percentage of 'resilient students' – students from socio-economically disadvantaged backgrounds who emerge as top performers. Learning From Shanghai: Lessons on Educational Success offers a close-up view of the people and the policies that have achieved such world-class performance. Based on research and personal observation gathered during the author's recent field work with school principals, teachers and students, this book explores the factors that explain Shanghai's exceptional success in education. The approach combines high standards of scholarly research and analysis with the author's unique personal insights, as evidenced by chapters entitled Education is Filling a Bucket and Lighting a Fire and Tiger Mothers, Dragon Children. Drawing on her experience as an education professional and a teacher of teachers, Charlene Tan thoroughly examines and analyzes the people, the policies and the practices that distinguish Shanghai educators. The contents include comprehensive details on the Shanghai approach to quality education, from discussion of the balance between centralization and decentralization, to school autonomy and accountability, to testing policy and professional development for teachers. The book includes detailed tables on curriculum and school performance targets, sample appraisal forms for teachers and students, and dozens of photographs. The author is an Associate Professor at the National Institute of Education, Nanyang Technological University, Singapore.
